

Learning Through Robotics

Dear Parents,

Your child has the opportunity to participate in a Robotics and STEM after school program beginning September 23, 2015 @ 2:45. This is for 4-6th grade students only. The cost is \$60 per student. There is only room for 30 students in the class and it will fill on a first come, first served basis. Please make the checks payable to Brookside Elementary and hand them in at the office. The deadline is Tuesday, September 15.

September 15 Deadline to register.

What is "Learning Through Robotics?"

"Learning Through Robotics offers interactive learning using "hands-on" material and equipment. Elementary students who like to do engineering subjects, math and science will love our classes because the interaction they will have with several types of robots. They will actually build mini robots using building models, attaching sensors and motors that are plugged into a computer and configure its behavior using a simple programming tool developed by world's leading research institutions and robotic companies."
